

VISITOR MANAGEMENT SOFTWARE (VMS) WORKFLOW DIAGRAM

MODERN VISITOR MANAGEMENT & WORKPLACE SECURITY SOFTWARE

A smart Visitor Management Software automates guest sign-ins, enhances facility security, sends instant host notifications, and ensures regulatory compliance seamlessly across modern office environments.

KEY & ADVANCED FEATURES

Touchless Pre-Registration & QR Entry

Send pre-arrival invites with custom QR pass codes for instant, contactless kiosk check-in.

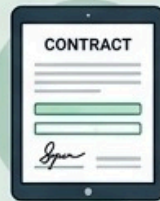

Instant Host Alerts

Automatically notify hosts via Slack, Teams, SMS, or Email the moment guests sign in.

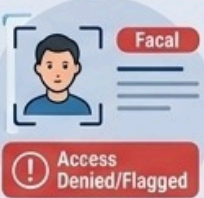

Digital NDA & Waiver Signing

Collect signed non-disclosure agreements and safety waivers directly on-screen before granting access.

ID Screening & Watchlist Alerts

Scan visitor IDs and cross-check details against internal blocklists and security watchlists in real-time.

Automated Custom Badge Printing

High-speed thermal printers instantly issue ID badges with guest photos, timestamps, and access levels.

Visitor Analytics & Insights

Track peak lobby traffic, department visit frequencies, vendor dwell times, and compliance records.
